## **INDEPENDENT AUDITOR'S REPORT**

The Board of Directors  
The Walton Electric Membership Corporation and Subsidiaries

### **Opinion**

We have audited the consolidated financial statements of **The Walton Electric Membership Corporation and Subsidiaries**, which comprise the consolidated balance sheets as of June 30, 2025 and 2024, and the related consolidated statements of operations, comprehensive income, changes in members' equity, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of The Walton Electric Membership Corporation and Subsidiaries as of June 30, 2025 and 2024 and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Walton Electric Membership Corporation and Subsidiaries and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Walton Electric Membership Corporation and Subsidiaries' ability to continue as a going concern for one year after the date that the consolidated financial statements are available to be issued.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatements of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Walton Electric Membership Corporation and Subsidiaries' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Walton Electric Membership Corporation and Subsidiaries' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

# THE WALTON ELECTRIC MEMBERSHIP CORPORATION AND SUBSIDIARIES

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### **(1) Nature of Operations**

The Walton Electric Membership Corporation (Walton EMC) is a member-owned, not-for-profit corporation whose purpose is to provide electric service to its members. Walton EMC operates as a cooperative whereby all monies in excess of cost of providing electric service are capital, at the moment of receipt, and are credited to each member's capital account.

Walton Energy, Inc. d/b/a Walton EMC Natural Gas, a wholly-owned subsidiary of Walton EMC, is a natural gas affiliate whose purpose is to provide natural gas service to its customers. Walton Solar, LLC, a wholly-owned subsidiary of Walton Energy, Inc., is an entity whose purpose is to own and operate cooperative solar projects for wholesale renewable electricity generation and sale.

Walton Discover, LLC and Walton Bainbridge, LLC, wholly-owned subsidiaries of Walton EMC, are generation facilities whose purpose is to provide Morgan Stanley Capital Group, Inc. with all of the facility output, pursuant to a tolling agreement.

Walton EMC and Subsidiaries are collectively known as the Corporation.

### **(2) Summary of Significant Accounting Policies**

#### *General*

Accounting policies of the Corporation reflect practices appropriate to the electric utility industry, the Georgia Natural Gas Consumption and Deregulation Act, and accounting principles generally accepted in the United States of America (U.S. GAAP). The records of the Corporation are maintained in accordance with the Uniform System of Accounts prescribed by the Federal Energy Regulatory Commission. The following describes the more significant of those policies.

#### *Basis of Presentation*

The Corporation's consolidated financial statements have been prepared in accordance with U.S. GAAP. The Financial Accounting Standards Board (FASB) provides authoritative guidance regarding U.S. GAAP through the *Accounting Standards Codification (ASC)* and related Accounting Standards Updates (ASUs).

#### *Consolidation*

The consolidated financial statements include the accounts and results of operations of Walton EMC and its wholly-owned subsidiaries. All significant intercompany transactions have been eliminated in consolidation.

#### *Regulated Operations*

The Corporation, in its rate-making capacity, has the ability to account for certain revenue and expense deferrals in accordance with *ASC 980*.

## **(2) Summary of Significant Accounting Policies (Continued)**

### ***Use of Estimates***

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### ***Long-Lived Assets***

The Corporation evaluates long-lived assets for impairment when events or changes in circumstances indicate that the carrying value of such assets may not be recoverable. The determination of whether an impairment has occurred is based on either a specific regulatory disallowance or an estimate of undiscounted future cash flows attributable to the assets, as compared with the carrying value of the assets. If an impairment has occurred, the amount of the impairment recognized is determined by estimating the fair value of the assets and recording a provision for loss if the carrying value is greater than the fair value. For the assets identified as held for sale, the carrying value is compared to the estimated fair value less the cost to sell in order to determine if an impairment provision is required.

U.S. GAAP requires the present value of the ultimate cost for an asset's future retirement be recorded in the period in which the liability is incurred. The cost should be capitalized as part of the related long-lived asset and depreciated over the asset's useful life. The Corporation has no legal retirement obligations related to its distribution facilities; therefore, a liability for the removal of these assets will not be recorded. Management believes the actual cost of removal, even though not a legal obligation, will be recovered through rates over the life of the distribution assets.

### ***Utility Plant***

Construction work in progress (CWIP) consists of construction and retirement costs associated with the Corporation's distribution system. CWIP charges principally include labor and applicable overheads, major materials, and contractor costs. The Corporation does not capitalize any interest incurred during construction as the majority of its distribution construction projects are of short duration.

CWIP is unitized to electric plant in service at cost less contributions in aid of construction. In general, utility plant is capitalized at the time it becomes part of an operating unit and has been energized. However, certain items of plant referred to as special equipment items (meters, transformers, oil circuit reclosers, etc.) are capitalized at the time of purchase along with related estimated cost of installation.

### ***Depreciation and Maintenance***

Depreciation of the capitalized cost is provided using composite straight-line rates. When property subject to depreciation is retired or otherwise disposed of in the normal course of business, its capitalized cost and its cost of removal less salvage are charged to the accumulated provision for depreciation.

Provision has been made for depreciation of distribution plant at a straight-line composite rate of 3.2 percent per annum.

Depreciation of general plant is provided on a straight-line basis over the estimated useful lives of the various assets. The rates range from 2.0 percent to 20.0 percent per annum.

## **(2) Summary of Significant Accounting Policies (Continued)**

### ***Depreciation and Maintenance (Continued)***

Depreciation of generation plant is provided on a straight-line basis over the estimated useful lives of the various assets. The rates range from 3.45 percent to 20.0 percent per annum.

The costs of maintenance, repairs, and replacements of minor items of property are charged to maintenance expense accounts.

### ***Cash and Cash Equivalents***

Cash equivalents include time deposits, certificates of deposit, and all highly liquid debt instruments with original maturities of three months or less.

The Corporation classifies all of its debt securities as held-to-maturity (HTM). HTM debt securities are those debt securities in which the Corporation has the ability and intent to hold the security until maturity. HTM debt securities are recorded at cost, as there are no associated premiums and discounts to amortize. A decline in the market value of any HTM security below cost that is deemed to be other than temporary results in an impairment to reduce the carrying amount to fair value. To determine whether impairment is other than temporary, the Corporation considers all available information relevant to the collectibility of the security, including past events, current conditions, and reasonable and supportable forecasts when developing estimates of cash flows expected to be collected. Evidence considered in this assessment includes the reasons for impairment, the severity and duration of the impairment, changes in value subsequent to year-end, forecasted performances of the investee, and the general market conditions in the geographical area or industry in which the investee operates. The Corporation's debt securities investments are invested at the National Rural Utilities Cooperative Finance Corporation (NRUCFC).

The carrying value of the debt securities approximated fair value with interest rates ranging from 3.91 percent to 4.32 percent with maturity dates ranging from July 17, 2025 to September 22, 2025. Based on ongoing credit evaluations, the Corporation does not expect payment defaults or delinquencies and has not recorded an allowance for credit losses for these securities as of June 30, 2025 and 2024.

### ***Receivables and Allowance for Credit Losses***

Accounts receivable are stated at the net realizable value. Once a consumer's service is shut off and the account is deemed uncollectible, the Corporation writes off the associated accounts receivable. An allowance is made for doubtful accounts based on experience and other circumstances which may affect the ability of consumers to meet their obligations. Accounts considered uncollectible are charged against the allowance. Receivables are reported on the consolidated balance sheets net of such accumulated allowance. Delinquent accounts receivable for natural gas is borne by a third-party gas asset manager through a contractual relationship.

Credit evaluations are performed on most potential consumers before accepting them for service. Depending upon the results of the credit evaluation, a deposit may be required. If a consumer does not pay its bill based on the terms of the Corporation's service agreement, the Corporation may require an additional deposit as a condition of continued service.

## (2) Summary of Significant Accounting Policies (Continued)

### *Receivables and Allowance for Credit Losses (Continued)*

The allowance for credit loss activity was as follows for the years ended June 30:

	<b>2025</b>	<b>2024</b>
Beginning Balance	\$ 10,740	\$ 20,922
Credit Loss Accruals	5,526,546	5,060,000
Write-Offs, Net of Recoveries	<u>(5,518,080)</u>	<u>(5,070,182)</u>
	<hr/> <b>\$ 19,206</b>	<hr/> <b>\$ 10,740</b>

### *Notes Receivable*

The Corporation's notes receivable are recorded at their unpaid principal balance, less any allowance for credit losses. Interest income is recognized on the accrual basis using the interest method. The Corporation evaluates the collectability of its notes receivable on a period basis and establishes an allowance for credit losses when collection of all or a portion of the principal or interest is not probable. In evaluating the adequacy of the allowance, management considers such factors as the financial condition of the borrower, payment history, the value of any underlying collateral, and the current economic conditions. Notes receivable are written off when, in the Corporation's judgement, they are deemed uncollectable. Recoveries of previously written-off amounts are recorded when received. Short-term notes receivable are generally due within one year and are carried at face value. Long-term notes receivable with stated interest rates approximating market rates are reported at amortized cost. When applicable, noninterest-bearing notes are recorded at the present value of future cash flows using an imputed interest rate. There were no noninterest-bearing notes for the years ended June 30, 2025 and 2024.

### *Materials and Supplies*

Materials and supplies are generally used for construction and for operation and maintenance work, and are not for resale. Cost is determined by the moving average method of inventory valuation. Materials and supplies are charged to construction or operations at moving average cost when used.

### *Advertising*

The Corporation expenses advertising cost as it is incurred.

## **(2) Summary of Significant Accounting Policies (Continued)**

### ***Revenue Recognition***

#### **Sales of Electricity**

Electric revenue is generated from contracts (service agreements) with retail electric customers. This revenue, generated from the integrated service to deliver electricity when and if called upon by the customer, is recognized as a single performance obligation satisfied over time and as electricity is delivered to the customer during the month. Unbilled revenue related to retail sales is accrued at the end of each fiscal period and is included as a component of accounts receivable on the consolidated balance sheets.

Electric revenue includes patronage capital and is billed monthly to consumers on a cycle basis. Electric rates for the Corporation include provisions to permit the board of directors to adjust billings for fluctuations in fuel costs, purchased power costs, and certain other costs.

#### **Sales of Natural Gas**

Revenue from the sale of natural gas is generated from contracts (service agreements) with customers and is billed monthly to customers on a cycle basis. Revenue is recognized when the natural gas is delivered to the customer based upon meter reading data provided by the local distribution company (LDC) as a single performance obligation satisfied over time as natural gas is consumed. Unbilled revenue is recorded for estimated deliveries of natural gas at the end of each period. Unbilled receivables are included in accounts receivable on the consolidated balance sheets.

#### **Sales of Distributive Generation**

Revenue from solar sales is billed monthly based on meter readings of solar generation output of each solar facility. Meter readings of solar generation output are recorded at month end and billed according to contractual rates. There were no unbilled receivables related to solar sales for the years ended June 30, 2025 and 2024.

Walton Discover, LLC and Walton Bainbridge, LLC's primary source of revenue is derived from a power plant tolling agreement with Morgan Stanley with offtake provisions for all energy to be produced by the facility. The Company considers bundled energy and capacity within these offtake agreements to be distinct performance obligations as each are often transacted separately in the marketplace, recognizing revenue associated with these contracts, the transaction price is allocated to each performance obligation based on its relative standalone selling price. Revenue is recognized as control of each individual component is transferred to the customer. Revenue from the sale of energy is generally recognized as units are produced and delivered to the customer within the production month. Capacity represents the reservation of the renewable generation facility and conveys the ability to call on the wind facility to produce electricity when needed by the customer. The nature of the Company's performance obligation as it relates to capacity is to stand ready to deliver power. This represents a single performance obligation transferred over time, which generally represents a monthly obligation. Accordingly, capacity revenue is recognized on a monthly basis.

#### Pole Attachments

Walton EMC has contractual agreements with customers for the attachment of other utility services to existing utility poles which it owns. Revenue is recognized over the term of the agreements. Customers are billed in accordance with the respective contracts; either annually in arrears or semi-annual in advance depending on the type of utility service attached to the poles. Payment is due within 30 days of the bill date.

Revenue is comprised of the following for the years ended June 30:

	<b>2025</b>	<b>2024</b>
Electric Revenue	\$ 426,529,206	\$ 366,843,621
Natural Gas Revenue	93,107,508	97,039,356
Distributive Generation Revenue	3,491,449	3,507,315
Pole Attachment Fees	3,280,585	2,952,042
Electric Fees and Other Charges	4,572,286	4,322,987
Natural Gas Fees and Other Charges	1,657,377	1,692,887
Other Electric Revenue	366,451	348,974
	<hr/> <b>\$ 533,004,862</b>	<hr/> <b>\$ 476,707,182</b>

#### *Cost of Revenues*

Cost of revenues for electricity and natural gas is expensed as consumed.

Cost of natural gas includes charges to purchase, transport, and store gas. The Corporation's contractual relationship with a third-party gas asset manager requires earnings by the unrelated party's operations derived from the Corporation to be shared at a 70 to 30 percent ratio. Payments in the amount of \$3,498,477 and \$1,896,320 are included as a component of cost of revenues for the years ended June 30, 2025 and 2024, respectively.

#### *Sales Tax*

A portion of the Corporation's sales are subject to sales taxes. The Corporation collects the sales taxes from the customers and remits the taxes to the appropriate taxing authority. The Corporation excludes the taxes collected and remitted from revenues and cost of sales.

#### *Generation and Transmission Cooperative Capital Credits*

Generation and transmission cooperative capital credits represent the annual capital furnished generation and transmission cooperatives through payment of power bills. The capital is recorded in the year provided, even though notification of the capital allocation is not received until later.

### ***Other Comprehensive Income (Loss)***

The objective of comprehensive income is to report a measure of all changes in equity of the entity that result from transactions and events of the period other than transactions with members. Comprehensive income consists of net margins and costs not yet recognized as a component of income related to retirement plans. Amounts reclassified out of accumulated other comprehensive income related to the Corporation's benefit plans are spread based on direct labor costs.

### ***Income Taxes***

Walton EMC operates under the Internal Revenue Code Section (IRC) 501(c)(12) as a tax-exempt cooperative. Wholly-owned subsidiaries, Walton Discover, LLC and Walton Bainbridge, LLC, are disregarded entities for income tax reporting purposes with operations reported in the Corporation's filings. Walton EMC is exempt from federal and state income taxes under Section 501(c)(12) of the IRC which provides, in part, that Walton EMC derive at least 85 percent of its annual gross income from members to retain the exemption. Walton EMC has met the requirement for the year ended December 31, 2024, which is on extension through November 15, 2025. As a tax-exempt cooperative, Walton EMC files a federal information return as of December 31 each year.

Walton Energy, Inc. operates under the Georgia Corporation Code as a for-profit corporation. The Corporation accounts for income taxes under the asset and liability method prescribed by U.S. GAAP. Wholly-owned subsidiary, Walton Solar, LLC, is a disregarded entity for income tax reporting purposes with operations reported in the Walton Energy, Inc.'s filings.

Walton Energy, Inc.'s deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates applied to taxable income. The effect of a change in tax rates on deferred income tax assets and liabilities is recognized in income in the period that includes the enactment date.

Walton Energy, Inc.'s taxable subsidiaries record interest and penalties related to federal and state income tax returns as a component of interest expense and nonoperating margins, respectively. No interest or penalties are included on the consolidated statements of operations for the years ended June 30, 2025 and 2024. Walton Energy, Inc. recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authority, based on technical merits of the position. As of June 30, 2025 and 2024, there were no known items which would result in a material accrual resulting from Walton Energy, Inc.'s federal or state tax positions. Additional information pertinent to the valuation of income taxes is provided in Note 12.

### ***Investments in Associated Organizations***

Investments in associated organizations primarily include investments in other cooperative organizations. Representing capital investments are made primarily to obtain an economical source of financing, product or service. Investments in other cooperative organizations are carried at cost plus allocated equities in accordance with *ASC 905-325-30*.

Capital credit allocations from associated organizations are included on the consolidated statements of operations as generation and transmission cooperative capital credits and other capital credits and patronage capital allocations.

Generation and transmission cooperative capital credits represent the annual capital furnished to generation and transmission cooperatives through payment of power bills. The capital is recorded in the year provided, even though notification of the capital allocation is not received until later.

### ***Patronage Capital and Margins***

Walton EMC is organized and operates under the cooperative form of organization. As such, patronage capital or margins are allocated to patrons on the basis of patronage. Under provisions of the long-term debt agreements, until the total equities and margins equal or exceed 20 percent of the total assets of Walton EMC, the return to patrons of capital contributed by them is limited. Distributions to members are made at the discretion of the board of directors in accordance with the bylaws, subject to the restrictions contained in the long-term debt agreements and the policies of Walton EMC.

### ***Reclassifications***

Certain reclassifications have been made within the June 30, 2024 consolidated financial statements to conform to the June 30, 2025 presentation. The reclassifications had no effect on net margins for the year ended June 30, 2024.

### ***Subsequent Events***

In preparing these consolidated financial statements, the Corporation has evaluated events and transactions for potential recognition or disclosure through November 26, 2025, the date the consolidated financial statements were available to be issued.

The Corporation accounts for its investments in Cooperative Choice, LLC utilizing the equity method. For the years ended June 30, 2025 and 2024, the Corporation recorded income of \$2,574,891 and \$2,419,122, respectively, as a component of nonoperating margins, related to these investments.

The Corporation has deposited funds, representing deferred compensation, on behalf of qualified employees who have elected to defer certain amounts of compensation. The Corporation is subject to assessment for any amounts by which the market valuation of the funds might fall short of contracted and guaranteed amounts due the employees. It is believed that any ultimate liability will not be material in relation to the total assets of the Corporation. The annual deferral of the compensation plans is calculated in accordance with IRC 457, subject to changes under IRC Section 457(b). The plan assets and liabilities are measured at fair value using quoted prices in active markets for identical assets and considered Level 1 investments valued using the market approach. The amounts are invested in mutual funds and totaled \$1,023,802 and \$1,068,843 for the years ended June 30, 2025 and 2024, respectively.

## (9) Debt

### *Long-Term Debt*

Long-term debt consists of mortgage notes payable to the NRUCFC. The notes are secured by a mortgage agreement between Walton EMC and NRUCFC. Substantially all the assets of Walton EMC are pledged as security for long-term debt of the Corporation. The notes have maturity periods varying from June 10, 2032 to December 1, 2063 and are payable on an installment basis. The notes contain certain affirmative and negative covenants, including maintenance of certain financial ratios as defined in the agreement. At June 30, 2025 and 2024, the Corporation was in compliance with the covenants.

<b>Holder of Note</b>	<b>Interest Rate at June 30, 2025</b>	<b>Interest Rate</b>	
		<b>2025</b>	<b>2024</b>
NRUCFC	2.81% to 7.05%	\$ 186,500,149	\$ 195,101,390

	<b><u>\$ 186,500,149</u></b>

Cash payments of interest totaled \$8,205,365 and \$7,519,713 for the years ended June 30, 2025 and 2024, respectively.

## **(9) Debt (Continued)**

### ***Lines-of-Credit***

Walton EMC has a \$24,000,000 line-of-credit at 6.05 percent with NRUCFC with an outstanding balance of \$12,200,000 and \$8,500,000 as of June 30, 2025 and 2024, respectively. The interest rate is variable and based on the published rate established by NRUCFC as its short-term rate, as specified in the Credit Agreement. The line-of-credit is secured by substantially all of the general assets of the Corporation and there were no limitations on availability.

Walton Energy, Inc. has a \$30,000,000 line-of-credit with the National Cooperative Services Corporation (NCSC) with a variable interest rate of 7.00 percent as of June 30, 2025. The available balance as of June 30, 2025 is \$20,915,581 due to the posted letters-of-credit. The line-of-credit is secured by substantially all of the general assets of the Corporation. The line-of-credit had no outstanding balance as of June 30, 2025 and 2024.

### ***Letter-of-Credit***

Walton EMC has a \$75,000,000 letter-of-credit with NRUCFC which is irrevocable and unconditionally guaranteed. The letter-of-credit would be payable to a third party under the terms of a power purchase and scheduling agent agreement entered into by the Corporation. Additional information pertinent to the agreement is provided in Note 15.

## **(10) Postretirement Benefits**

### ***Defined Contribution Plan***

The Corporation provides employee benefits to substantially all employees through a sponsored defined contribution Savings Plan (401-k). In this defined contribution plan, the Corporation's contributory portion of the costs totaled \$2,246,000 and \$1,986,000 for the years ended June 30, 2025 and 2024, respectively.

### ***Defined Benefit Pension Plan***

The Corporation provides a noncontributory defined benefit pension plan covering substantially all employees of the Corporation. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The administrative committee determines the appropriateness of the plan's investments, monitors the investment performance, and reports to the board of directors. The Corporation absorbs certain administrative costs associated with the plan.

Effective July 1, 2009, the Corporation approved an amendment to freeze participation in the plan for employees hired subsequent to July 1, 2009. Employees who commenced participation in the plan on or before this date are not affected by this amendment.

For the year ended, June 30, 2025, in lieu of the monthly pension for certain participants, the Corporation paid lump sums totaling \$8,903,884, the payment of which is a settlement as defined in ASC 715. Because the lump sums were less than the corresponding benefit obligation, their payment results in a gain of that amount reflected in other comprehensive income. Because the cost of all settlements were less than the sum of the service cost and interest cost of the year's net periodic pension cost, the payment of these lump sums is accounted for as a partial settlement of the benefit obligation under ASC 715-30-35.

Other	<b>16.00%</b>	2.00%	7.00%
Total Plan Asset Allocation	<b>100.00%</b>	100.00%	100.00%

The Corporation employs a total-return investment approach whereby a mix of equities and fixed income investments is used to maximize the long-term return of plan assets for a prudent level of risk. The current asset allocation adheres to the Corporation's overall investment strategy for plan assets. Plan assets are measured at fair value. The investments are considered a Level 1 measurement based on quoted market prices in active markets for identical assets.

The components of net periodic postretirement benefit cost, other than the service cost component, are included in the line item nonoperating margins for the years ended June 30, 2025 and 2024.

Miscellaneous Deferred Debits	<b>5,218</b>	576
		<hr/>
	<b>\$ 18,020,575</b>	\$ 16,979,943

AGLC charges for Walton Energy, Inc. are reported by the Corporation related to cost for pipeline, storage, and supporting services to be incurred the month following actual billing. The Corporation accounts for the charges as a deferred item and expenses them in the appropriate month.

Walton Energy, Inc. has a credit agreement with an unrelated party for \$10,000,000 for the years ended June 30, 2025 and 2024. The agreement bears an interest rate of 5 percent and matures on June 30, 2026. Walton Energy, Inc. will be paid accrued interest annually along with principal upon maturity. Interest receivable on the agreement totaled \$2,740 and \$502,740 as of June 30, 2025 and 2024, respectively. The interest receivable per the agreement was received by Walton Energy, Inc. on June 27, 2025. The remaining interest receivable balance as of June 30, 2025 was noted as being received in full in the month subsequent following period end. Walton Energy, Inc. intends to continue to extend the agreement in subsequent years and has reported the amount as a component of other assets accordingly. Based on ongoing credit evaluations of the notes, the Corporation does not expect payment defaults or delinquencies and has not recorded an allowance for credit losses as of June 30, 2025.

## (12) Income Taxes

Details of income tax expense (benefit) are as follows as of June 30:

	<b>2025</b>	<b>2024</b>
Federal	\$ 448,000	\$ 67,500
Deferred	<u>3,776,227</u>	3,483,250
State	1,528,130	194,117
Deferred	<u>2,711,000</u>	3,302,000
	<u><u>\$ 8,463,357</u></u>	<u><u>7,046,867</u></u>

The tax effects of temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and their respective tax basis, which give rise to deferred tax assets and liabilities computed at statutory rates, are as follows as of June 30:

	<b>2025</b>	<b>2024</b>
Deferred Tax Assets		
Net Operating Loss Carryforwards	\$ 1,613,015	\$ 2,308,800
Unrealized Federal Tax Credits	<u>283,175</u>	3,483,250
Deferred Tax Liabilities		
Accelerated Depreciation and Other Property Basis Differences	<u>(1,773,767)</u>	(1,838,552)
	<u><u>\$ 122,423</u></u>	<u><u>3,953,498</u></u>

For the years ended June 30, 2025 and 2024, the Corporation had a federal net operating loss carryforward resulting in a deferred tax asset. No valuation allowance has been established due to the likelihood that the full tax benefit will be realized.

Unrealized federal tax credits are a result of the federal investment tax credit related to construction of solar plant. No valuation allowance has been established due to the likelihood that the full tax benefit will be realized before expiration beginning in 2036 through 2038.

Deferred tax liabilities are the result of property-related timing differences for depreciation. The application of bonus depreciation for solar plant significantly increased deferred tax liabilities for the years ended June 30, 2025 and 2024. The deferred tax asset is included in other assets on the consolidated balance sheet.

There were no cash payment for taxes made for the years ended June 30, 2025 and 2024.

### (13) Deferred Credits

Deferred credits are comprised of the following as of June 30:

	<b>2025</b>	<b>2024</b>
Unclaimed Property	\$ 9,457,500	\$ 7,158,780
Deferred Revenue	45,000,000	35,000,000
Power Cost Rebate	9,472,515	10,449,356
Construction Performance Deposits	<u>16,041,864</u>	16,151,796
	<hr/> <u>\$ 79,971,879</u>	<hr/> <u>\$ 68,759,932</u>

The power cost revenue deferrals represent a revenue deferral plan to reduce the impact of the future power cost increases by various power suppliers on the Corporation's rate structure. The revenue deferral is in compliance with U.S. GAAP related to the effects of certain types of regulations and has been approved by the board of directors.

The power cost rebate represents funds received from a purchased power supplier to offset a portion of the cost incurred related to providing credit support for the power purchase and scheduling agent agreement detailed in Note 15. The rebate will be recorded as a reduction in future power cost over the term of the agreement. The treatment is in compliance with U.S. GAAP related to the effects of certain types of regulations and has been approved by the board of directors.

The construction performance deposits represent funds received for two solar generation construction projects currently in progress. The deposits are refundable to contracted parties at the time the generation facilities are placed into service and the performance terms of the agreements are met. Additional information pertinent to the agreement is provided in Note 15.

#### (14) Accumulated Other Comprehensive Loss

#### (15) Commitments

Walton EMC has entered into various long-term contracts to meet the power supply demands of its consumers. The Corporation has a commitment to pay for its assignment of fixed costs through the term of these contracts, as well as any variable cost incurred above the allocated fixed cost amounts. The Corporation is a member of a generation cooperative known as Oglethorpe Power Corporation (OPC) and has contracted with OPC based on a percentage of fixed or designated costs to purchase power supply from various facilities owned by OPC. The Corporation has multiple contracts with various expiration terms through 2085. Related fixed costs under these contracts were \$122,959,000 and \$102,083,000 for the years ended June 30, 2025 and 2024, respectively.

Walton EMC elected to participate in OPC's "5 for 5 Rate Management Program." The objective of this program is to provide a means by which existing obligations of OPC that would otherwise be recognized as expense and billed in the future can be billed to OPC members over a five-year period then credited back against the OPC member's power bill in the subsequent five years. The Corporation elected to make payments through 2021 and receive credits from 2022 through 2026. Total credits applied totaled approximately \$14,391,000 and \$14,562,000 for the years ended June 30, 2025 and 2024, respectively. The Corporation earns a return on the amounts funded into this program which are credited against the Corporation's power bill.

## **(15) Commitments (Continued)**

Effective January 1, 2016, Walton EMC entered into a power purchase and scheduling agent services agreement. Effective March 19, 2018, Walton EMC entered into an additional power purchase and scheduling agent services agreement with the same supplier extending the terms through December 31, 2035. Under the terms of the agreements, Walton EMC is required to maintain a modified debt service coverage ratio equal to or greater than 1.35 and a debt to equity ratio less than 2.5 to 1. In the event these conditions are not met, Walton EMC will be required to provide the supplier with acceptable credit support in an amount equal to \$100 million through 2026. As a result of the additional agreement, Walton EMC was required to provide a credit enhancement in the form of an irrevocable standby letter of credit for an initial amount not less than \$75 million. In the event the conditions outlined previously are not met from 2026 through 2035, Walton EMC will be required to provide the supplier additional acceptable credit not to exceed \$75 million. Once conditions are again met by Walton EMC, the remaining amount of credit support will be returned.

Under the terms of the agreement, the supplier will supply 100 percent of regulation, spinning reserves, supplemental reserves, and planning reserve capacity. The Corporation is in compliance as of June 30, 2025.

Walton EMC is a member of a transmission cooperative known as Georgia Transmission Corporation (GTC) and as such, has a Member Transmission Service Agreement (MTSA) executed in 1996. This agreement, and an approved extension, requires Walton EMC to take transmission-related services through December 31, 2085. Transmission services under this agreement were approximately \$30,014,000 and \$24,368,000 for the years ended June 30, 2025 and 2024, respectively. Transmission service is recorded as a component of cost of power.

Walton EMC has entered into various assignment and assumption agreements through Green Power EMC and its participating members. These agreements are in support of Walton EMC receiving capacity and energy from the various renewable generation projects that Walton EMC has chosen to participate in through Green Power EMC. Services under the agreements were approximately \$471,000 and 1,425,000 for the years ended June 30, 2025 and 2024, respectively. Renewable generation costs are recorded as a component of cost of power.

Effective August 31, 2018, Walton EMC entered into a solar power purchase agreement with SR Arlington, LLC to accept and purchase all the generated quantity at the agreed upon contract price. The agreement will stay in force for a term ending on the later of 16 years from commercial operating date or December 31, 2035 with an option to extend the initial term 5 years upon written notice at least one year prior to the end of the initial term.

Effective October 1, 2018, Walton EMC entered into two solar power purchase agreements with Odum Solar, LLC to accept and purchase all the generated quantity at agreed upon contract prices with contracted suppliers. The agreements will stay in force for a term ending on the later of 15 years from commercial operating dates or December 31, 2035.

Effective November 19, 2019, Walton EMC entered into a solar power purchase agreement with SR Baxley, LLC to accept and purchase all the generated quantity at agreed upon contract prices with contracted suppliers. The agreement will stay in force for a term ending on December 31, 2035.

Effective December 17, 2019, Walton EMC entered into a solar power purchase agreement with SR Lumpkin, LLC to accept and purchase all the generated quantity at agreed upon contract prices with contracted suppliers. The agreement will stay in force for a term ending on December 31, 2035.

## **(15) Commitments (Continued)**

Effective October 24, 2019, Walton EMC entered into a solar power purchase agreement with SR Snipesville II, LLC to accept and purchase all the generated quantity at agreed upon contract prices with contracted suppliers. The agreement will stay in force for a term ending on December 31, 2035.

Effective April 5, 2021, Walton EMC entered into a solar power purchase agreement with Lancaster Solar, LLC to accept and purchase all the generated quantity at agreed upon contract prices with contracted suppliers. The agreement will stay in force for a term ending on December 31, 2037.

Effective December 7, 2021, Walton EMC entered into a solar power purchase agreement with SR Desoto I, LLC to accept and purchase all the generated quantity at agreed upon contract prices with contracted suppliers. The agreement will stay in force for a term ending on December 31, 2037.

Effective October 26, 2022, Walton EMC entered into a solar power purchase agreement with SR Desoto III, LLC to accept and purchase all the generated quantity at agreed upon contract prices with contracted suppliers. The agreement will stay in force for a term ending on December 31, 2038.

Effective October 26, 2022, Walton EMC entered into a solar power purchase agreement with SR Robins, LLC to accept and purchase all the generated quantity at agreed upon contract prices with contracted suppliers. The agreement will stay in force for a term ending on December 31, 2038.

Effective October 26, 2022, Walton EMC entered into a solar power purchase agreement with SR Toombs, LLC to accept and purchase all the generated quantity at agreed upon contract prices with contracted suppliers. The agreement will stay in force for a term ending on December 31, 2038.

Under current law, the Corporation has the ability to recover these costs from its members; however, any change to existing laws could adversely affect the ability to recover these costs.

In addition, Walton Energy, Inc. is subject to a natural gas supply management agreement, as amended, with an outside third party. The third-party acts as the gas asset manager and is responsible for “management services” which include, but are not limited to, performing all administrative and operational tasks associated with providing the Corporation with transportation services, storage services, consulting services, and nominating services.

Walton Energy, Inc. services both fixed and variable rate customers. The third party bills the Corporation monthly for the volume of gas used by each customer type. When fixed-rate customers lock their rate in with Walton Energy, Inc., the third party is required by the agreement to sell that volume at a negotiated fixed price to the Corporation. The Corporation has concluded this agreement qualifies as a normal purchase under ASC 815-10-15-13 and is therefore not account for as a derivative instrument. The Corporation’s risk is limited to the counterparty’s non-performance risk. The Corporation does not consider this risk to be significant as of June 30, 2025.

Walton Energy, Inc. has an obligation to deliver a volume of natural gas required by AGLC. If a natural gas marketer does not deliver the required amount of natural gas, penalties may apply in accordance with the AGLC Tariff. Since the amounts required by AGLC are based on estimates, an imbalance, either positive or negative, occurs with some natural gas marketers delivering more natural gas than their consumers actually consume and other natural gas marketers delivering less natural gas than their consumers actually consume. An imbalance in deliveries of natural gas results in some marketers owing other marketers for excess natural gas (short marketer) and some marketers being owed by other marketers for deficient deliveries of natural gas (long marketer). An imbalance from the short marketers is settled with the long marketers, pursuant to the AGLC Tariff.

## **(15) Commitments (Continued)**

On December 12, 2008, Georgia Public Service Commission (GPSC) approved an order which changed the methodology to determine the amount of natural gas each marketer is required to deliver, established an escrow fund to receive imbalance amounts from short marketers, required letters-of-credit to secure payment obligations, and shortened the time period associated with the settlement process. GPSC conducts an audit to determine Walton Energy, Inc.'s letter-of-credit requirement. As a result of the audit, Walton Energy, Inc.'s letter-of-credit requirement totaled \$105,385 and was obtained from NCSC for the year ended June 30, 2025. The letter-of-credit requirement is determined on a quarterly basis and has been guaranteed by Walton EMC.

Walton Energy, Inc. is also required by AGLC's Tariff to provide liquidity support to secure payment of their obligations to AGLC. The liquidity support required is adjusted semiannually based upon a calculation defined in the AGLC Tariff. The liquidity support requirement can be satisfied by cash deposits, a letter-of-credit, or a combination of each. Walton Energy, Inc. has elected to secure a letter-of-credit in the amount of \$8,479,800 from NCSC to meet requirements for the year ended June 30, 2025. The letter-of-credit matured on November 5, 2025. Walton Energy, Inc. renewed its letter-of-credit amount based on the required liquidity support upon maturity. Walton EMC has guaranteed the letter-of-credit under ASC 460-10-50. The guarantee is not expected to result in material losses.

## **(16) Concentrations of Credit Risk**

The Corporation maintains interest-bearing cash balances in multiple financial institutions; those cash balances throughout the year periodically exceed the federally insured deposit limits. The Corporation believes that its cash is not exposed to any significant risk and the Corporation has not experienced any loss in accounts which exceed federally insured limits. At June 30, 2025, bank balances exceeded federally insured deposit limits by \$3,841,490.

As of June 30, 2025, the Corporation held NRUCFC select notes and commercial paper in the amount of \$15,171,738 and \$8,000,000, respectively. These amounts were included as a component of cash and cash equivalents. These amounts are not secured or otherwise subject to federally insured deposit liability coverage.

The Corporation serves customers in the state of Georgia. The geographic concentrations of the Corporation's customers result in a concentration of credit risk with respect to the collection of accounts receivable. Credit evaluations are performed on most potential customers before accepting them for service. Depending upon the results of the credit evaluation, a deposit may be required. If a customer does not pay its bill based on the terms of its service agreement, the Corporation may require a consumer deposit as a condition for continued service.

## **(17) Litigation**

The Corporation is involved in litigation arising in the ordinary course of business. After consultation with legal counsel, management estimates that these matters will be resolved without a material adverse effect on the Corporation's future financial position or results from operations.

### **INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE**

The Board of Directors  
The Walton Electric Membership Corporation and Subsidiaries

We have audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheets of **The Walton Electric Membership Corporation and Subsidiaries** as of June 30, 2025 and 2024 and the related consolidated statements of operations, comprehensive income, changes in members' equity, and cash flows for the years then ended, and have issued our report thereon dated November 26, 2025.

In connection with our audits, nothing came to our attention that caused us to believe that The Walton Electric Membership Corporation (Walton EMC) failed to comply with the terms of Article V of the National Rural Utilities Cooperative Finance Corporation Loan Agreement insofar as they relate to accounting matters. However, our audits were not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding Walton EMC's noncompliance with the above-referenced terms insofar as they relate to accounting matters.

This report is intended solely for the information and use of the boards of directors and management of The Walton Electric Membership Corporation and the National Rural Utilities Cooperative Finance Corporation and is not intended to be and should not be used by anyone other than these specified parties.
